

Save Fern Gully Forest!

WITH THE COMMUNITY NATURE FOUNDATION

MISSION AND GOALS:

- 1** RAISE THE REMAINING FUNDS TO PURCHASE AND PROTECT from development the acre of a community forest we've been working to conserve with ancient Red Cedar Trees that the children love.
- 2** Offer service-learning opportunities & work parties to cultivate community gardens & to restore the forest to its natural splendor.
- 3** PROVIDE EQUAL ACCESS TO OUTDOOR EDUCATION with Fern Gully Forest School where children & families can safely socialize, play, learn & develop a lifelong connection & care for the environment.

TOGETHER WE CAN SAVE THE TREES & cultivate communities that are more resilient & connected to the wisdom & medicine in nature.
