

Save Fern Gully Forest!

WITH THE COMMUNITY NATURE FOUNDATION

MISSION AND GOALS:

- 1** Raise \$40,000 to purchase & protect from development the remaining acre of a community forest we've been working to conserve with ancient Red Cedar Trees that the children love.
- 2** Provide public access, service-learning opportunities & work parties to clean up & restore the forest to its natural splendor.
- 3** Provide outdoor education with Fern Gully Forest School where children & families can safely socialize, play, learn & develop a lifelong connection & care for the environment.

Together we will save this forest & cultivate communities that are more resilient & connected to the wisdom & medicine in nature.
